

Human Resources response to USAC Compensation Summary of Issues

Monday, May 8, 2023

Hi Amanda and Adam,

Thank you for forwarding the USAC Staff Life Committee's summary of issues around staff compensation. This email is confirming the university's receipt of the summary. Additionally, I want to thank the committee for working on and drafting this thoughtful recommendation. I agree with the committee's acknowledgement that many of these issues have existed for a period of time. As such, the university remains committed to addressing compensation through projects like the Career and Compensation Framework and other HR improvements. We will continue to keep you updated on these improvements and projects.

Thanks again,
Cleo
