The Symbols and Regalia

The visual symbols of Vanderbilt University communicate our rich history and our vibrant future. The oak tree is a traditional symbol for education as well as for strength and longevity. The stylized oak leaf and acorn in the Vanderbilt logo were inspired by motifs from the Vanderbilt family coat of arms. The predominant colors in the Vanderbilt coat of arms are black and gold. The initial “V” has been used frequently throughout the years as an architectural detail on campus buildings. The Vanderbilt University wordmark incorporates two typefaces, graphically linking old and new, our history and our future.

The current chair of the Faculty Senate carries the mace, an ancient sign of authority. It is displayed on the front of the podium as the symbol of the university’s authority to confer degrees. Symbolic images that decorate the gilded metal of the mace include VU monograms, embattled shields, oak leaves and acorns, irises and magnolias.

The chancellor’s insignia of office is a silver and gilt collar that displays several emblems of the university. The parallel chains of sterling silver are surmounted by alternating Vanderbilt shields and modified Founder’s Medals, from which hangs a medallion with an impression of the seal of the university. The decagonal silver frame of the medallion symbolizes the ten schools.

Trustees of the university wear black gowns distinguished by gold piping on the velvet bars of the sleeves. The design of the academic regalia and the colors worn are significant. Undergraduates—those receiving bachelor’s degrees—wear tassels signifying the degree they have earned: golden yellow for science, pink for music, and orange for engineering. By tradition, the bachelor of arts degree tassels are black.

The distinguishing mark of the gown is the sleeve: bachelor—a long, pointed sleeve; master—an oblong sleeve open at the wrist; doctor—open, pointed sleeves lined with dark blue satin to signify the Ph.D. Vanderbilt’s custom gown for those receiving the doctor of philosophy has antique gold front and back panels and an embroidered “V” on the gown’s yoke. Vanderbilt doctoral candidates wear eight-sided velvet tams with gold tassels.

The velvet edging of the doctoral hoods signifies whether the degree is J.D., M.D., Ed.D., D.N.P., or Ph.D.—purple for law, green for medicine, light blue for education, apricot for nursing, and dark blue for the doctor of philosophy, which may be earned in a number of disciplines. Masters’ hoods are edged with white for arts, brown for fine arts, gold for science, purple for law, salmon pink for public health, peacock blue for public policy, scarlet for theology, light blue for education, orange for engineering, apricot for nursing, and light brown for business. All hoods are lined with silk in colors signifying the institution granting the degree. Vanderbilt hoods are lined in gold and bear a black chevron.

The Banner Bearers

Each banner, with a field in the appropriate academic color, is decorated with the Vanderbilt logo. In recognition of Peabody’s history, a Peabody Centennial Medal in a round walnut frame is mounted above the banner. Banner bearers this year are:

Elizabeth Mary Winter for the College of Arts and Science
Zachary Redfield Kleiman for the Blair School of Music
Sam Patrick Hurd for the School of Engineering
Lauren Leocadia Stoner for Peabody College
Jessica Devanique McMillan for the School of Nursing
Armando Guerrero Estrada for the Divinity School
Eric Dylan Watts for the Law School
Cleon Rice for the Owen Graduate School of Management
Sir Norman Tyler Melancon for the School of Medicine
Adrian Gabriel Cadar for the Graduate School

THE Nichols- Chancellor's MEDAL

The Nichols-Chancellor's Medal is one of the university's highest honors and is awarded to individuals who define the 21st century and exemplify the best qualities of the human spirit. It was established by Vanderbilt Law School graduate Edward C. Nichols, Jr., and his wife, Janice, in memory of Edward Carmack Nichols and Lucile Hamby Nichols. The medal is presented at Vanderbilt's Senior Class Day and also carries a monetary award.

The 2018 Nichols-Chancellor's Medal is presented to human rights lawyer Amal Clooney, who specializes in public international law, international criminal law, and human rights at London's Doughty Street Chambers. In the last year, she successfully represented three political prisoners: Canadian journalist Mohamed Fahmy, who was convicted in the "Al Jazeera trial" in Egypt; former President of the Maldives Mohamed Nasheed, who was imprisoned on false terrorism charges; and award-winning Azerbaijani journalist "Khadija," who was arrested in Baku after reporting on corruption by the Azerbaijani president. All have now been released from detention. She is currently counsel to Nadia Murad and other Yazidi women who have been sexually enslaved by ISIS in Iraq and Syria, working to secure accountability for the genocide committed by ISIS in national and international courts. She has appeared before the International Court of Justice, the International Criminal Court, the European Court of Human Rights, and various courts in the United Kingdom and the United States. She is a frequent adviser to governments on international law and has held a number of posts within the United Nations. She also has been named a "Young Global Leader" by the World Economic Forum, and she serves on the Forum's Global Council on Human Rights.

THE FOUNDER'S MEDAL RECIPIENTS

Madison Caroline Renner, from Franklin, Tennessee, is this year's Founder's Medalist for the College of Arts and Science. She is graduating with a bachelor of arts.

Through her studies in environmental sociology at Vanderbilt, Madison has acquired scientific tools that enable her to understand issues related to climate change from both sides of the political spectrum. In one project, she explored a climate-adaptation movement led by women in North Africa who created a market for craft baskets. While she expected to discover a relationship between climate-adaptation and income insecurity, instead she gained scientific insights into the ways that income insecurity may be reduced by female empowerment. She also conducted research on how the American public's views of climate change are shaped by the media. Madison was awarded a Vanderbilt Undergraduate Summer Research Fellowship and received the Outstanding Senior Award in Sociology. After graduation, she will pursue a Ph.D. in sociology at Harvard University.

Andrew Lee Sledge, from Garner, North Carolina, is this year's Founder's Medalist for the Blair School of Music. He is graduating with a bachelor of music.

In order to fund the purchase of a new bassoon during his studies at Vanderbilt, Andrew presented a recital in his home town from which he gathered enough donations to cover a portion of that instrument purchase. Since then, he has enjoyed giving annual solo and chamber recitals within the Blair School. Andrew served as principal with Vanderbilt Orchestra and Wind Symphony, performed on Nashville Public Radio, and was a recording musician for professional sessions in Nashville. A finalist in the Vanderbilt Concerto Competition and a member of Pi Kappa Lambda, the National Music Honor Society, he received the Elliott and Ailsa Newman Prize for performance excellence. He studied internationally with members of the Berlin Philharmonic and the Paris National Opera and conducted summer studies at the Vanderbilt Music Académie in Aix-en-Provence, France, and Domaine Forget International Music and Dance Academy in Québec. In the fall, Andrew will be attending the Yale School of Music to pursue a graduate degree in bassoon performance.

Crystal Marie Loehman, from Downers Grove, Illinois, is this year's Founder's Medalist for the School of Engineering. She is graduating with a bachelor of engineering in chemical engineering.

When Crystal listened to a panel of chemical engineers discuss their careers in her Introduction to Engineering class, she was excited by the idea of designing products that millions of people would use. As she graduates from the School of Engineering, such opportunities will become Crystal's reality. While at Vanderbilt, Crystal has promoted STEM to hundreds

of children by teaching in programs such as Engineering for Kids and Code Ignite, spurring their interest in science, technology, engineering, and mathematics, and bringing to others the early exposure to STEM that she did not have. A first-generation graduate, Crystal has combined outreach and high academic achievement with service to the Vanderbilt community through four years on the Honor Council and two years as a resident adviser. This fall, Crystal will join Mars Petcare as a process engineer.

Logan Elizabeth Brown, from Lawrence, Kansas, is this year's Founder's Medalist for Peabody College and is graduating with a bachelor of science.

After her seventh-grade civics class sparked her interest in law, Logan pursued an internship at her local district attorney's office. She has known since the first jury trial she witnessed during that internship that she wanted to be a lawyer to help victims of violence. At Vanderbilt, Logan has developed her passions and her interest in the law through a human and organizational development major, researching counterterrorism issues and working with military and law enforcement organizations. She won the Nichol's Humanitarian Award which enabled her to work with victims of human trafficking in England and demonstrated to her the importance of international law and the differences among legal systems. Logan plans to combine her passions and work on counterterrorism from a legal perspective. A recipient of a 2018 Marshall Scholarship, Logan will pursue her master's in terrorism, security, and society at King's College London.

Kelsey Laine Davis, from Thousand Oaks, California, is this year's Founder's Medalist for the Divinity School. She is graduating with a master of divinity.

Among Kelsey's experiences while at Vanderbilt was working with Thistle Farms—a nonprofit organization dedicated to helping women recover from prostitution, trafficking, and drug use. Being welcomed into that community, Kelsey says, taught her “the transformative and healing power of love, hospitality, and community.” Those principles are in evidence throughout Kelsey's time at Vanderbilt, from chaplaincy centered on children and young adults to serving on the board of Street Child United USA, which serves homeless and street-connected children through soccer. Kelsey enrolled in the Divinity School after a successful sports career as goalkeeper with the United States Women's National Soccer Team. She was named a Harold Stirling Vanderbilt Scholar and a fellow in the Cal Turner Program for Moral Leadership in the Professions. Having completed her theological education at Vanderbilt, she is now discerning a call to ordained ministry in the Episcopal Church.

THE FOUNDER'S MEDAL RECIPIENTS

Morgan Lea Flanders, from Peachtree City, Georgia, is this year's Founder's Medalist for the Owen Graduate School of Management and is graduating with a master of business administration.

Morgan entered the MBA program at Owen as a Dean's Scholar and Forté Fellow and she graduates with concentrations in strategy and operations. Her studies at Owen confirmed Morgan's passion for consulting. She learned to think critically about the interrelation between various functions within an industry and developed a deep understanding of the integral role that operations play in a company's overall performance. Morgan was president of the Strategy and Consulting Club, which gave her opportunities to mentor first-year students, an experience she values highly. The collaborative Owen community has been important to Morgan's success, but perhaps even more significant is the support of her grandparents, Bea and Ron Andrews, who made college possible for her. After graduation, Morgan and her fiancé, Brett, will move to Atlanta, where Morgan will join Deloitte as a senior management consultant.

Richard Turner Henderson, from Nashville, Tennessee, is this year's Founder's Medalist from the Law School. He is graduating with a doctor of jurisprudence.

Turner excelled in his legal studies throughout his time at Vanderbilt. In addition to making the Dean's List all semesters and receiving numerous Scholastic Excellence Awards, he earned the Archie B. Martin Prize for the highest average for the first year and the Robert F. Jackson Award for the highest average after two years. Turner served as the notes editor for the *Vanderbilt Law Review* and received the Myron Penn Laughlin Award for the best published student note. Additionally, he was the articles editor for the *Environmental Law and Policy Annual Review*. After graduation, Turner will join Bass, Berry & Sims in Nashville as an associate.

Thushara Gunda, from Alexandria, Virginia, is this year's Founder's Medalist for the Graduate School. She is graduating with a doctor of philosophy in environmental engineering.

Thushara learned the value of looking at natural dynamics in a systems manner while she was an undergraduate researching mercury distribution in the Shenandoah Mountains. Shortly thereafter, living in Texas during one of the hottest summers on record, she gained understanding of the role humans play in governing water resources. Together, these experiences helped bring her to Vanderbilt for advanced study that integrated the human and physical factors involved in managing water resources. In her graduate research, Thushara has combined diverse disciplines to gain insight into the complex factors influencing farmer decision-making in Sri Lanka. In addition to publishing, she enjoys sharing her work with elementary and middle school students, and she founded the annual Engineering

Day event, which brings students onto campus for a day of hands-on engineering activities. Thushara and her husband, Alec, live in Albuquerque where she is conducting research at Sandia National Laboratories and looking forward to serving the New Mexico community.

Brenna Danielle Gillis, from Mount Juliet, Tennessee, is this year's Founder's Medalist for the School of Nursing. She is graduating with a doctor of nursing practice.

For Brenna, helping others to heal, physically and mentally, has become her life's work. As an undergraduate, she majored in psychology and completed an internship on an inpatient psychiatric unit. These experiences deepened her compassion for those who are ill and fostered her love for mental health care and nursing. During the first year of her master's program at Vanderbilt, Brenna developed a passion for integrating mental health with women's health and prenatal care; she then entered Vanderbilt's doctor of nursing practice program to continue growing as a nurse scholar and health care leader. Her doctoral scholarly project helped nurse-midwives standardize and strengthen their process for educating pregnant women about perinatal depression. In addition to volunteering on campus and in the community, Brenna earned 4.0 GPAs in both her master's and doctoral programs at Vanderbilt. Now a certified psychiatric-mental health nurse practitioner, she provides mental health services to children, adolescents, and adults.

Whitney Elizabeth Muhlestein, from South Pasadena, California, is this year's Founder's Medalist for the School of Medicine. She is graduating with a doctor of medicine.

Whitney's inspiration to pursue a career in surgery came, in large part, from her mentor, Vanderbilt University Medical Center Assistant Professor of Neurological Surgery Lola Chambless, M.D., who has a passion for encouraging women to enter the field. At Vanderbilt, Whitney used machine learning to model surgical outcomes, publishing several papers and presenting her research at national conferences. During her third year of medical school, she co-directed the student-run Shade Tree free clinic, focusing on improving access to hepatitis C treatment. At the clinic, Whitney helped to manage more than 300 uninsured and low-income patients, directly supervising clinic sessions 1-2 times per week, and coordinating more than 100 clinic staff and volunteer physicians. She was inducted into the Alpha Omega Alpha and Gold Humanism honor societies in recognition of her leadership, dedication, and achievement. Whitney, husband Dallin, and son Niko are moving to Wake Forest where Whitney will complete an intern year in general surgery.

Alma Mater

*On the city's western border, reared against the sky,
Proudly stands our Alma Mater as the years roll by.
Forward! ever be thy watchword, conquer and prevail.
Hail to thee, our Alma Mater, Vanderbilt, All Hail!*

*Cherished by thy sons and daughters, memories sweet shall throng
'Round our hearts, O Alma Mater, as we sing our song.
Forward! ever be thy watchword, conquer and prevail.
Hail to thee, our Alma Mater, Vanderbilt, All Hail!*
